Subject: **996R WORKSHOP MANUAL – TESTASTRETTA ENGINE**

Please find enclosed the section of the 996R workshop manual describing the Testastretta engine.

We thought that anticipating you this section of the complete manual was important in order to enable you to arrange all technical information necessary to carry out the proper maintenance and overhaul of the above-mentioned engine.

We wish to draw your attention to the section about maintenance and overhaul operations that have to be carried out on the new cylinder heads and about doing the timing.

You will also find information about the new part numbers of Ducati Special Tools that have been specially created for the Testastretta engine and that have already been introduced in the promotional campaign "Ducati Special Tools for Service"

In case you need other copies of the manual you can use the following spare part number:

**91470321E**

We will send you the complete manual -with the chassis sections- as soon as it will be available.

We trust you will give this matter due consideration.  
Best regards.
